(The thought in the mind of the speaker was evidently relationship of nearly every member, etc.) The measurements and the plot were made as described above; the scale for the X-axis in plate xu is 1mm. = 0.025s. A small scale is desirable when the general course of melody is to be studied, as with the large scale the eye gets no definite picture from the plot; for the same reason a smooth line is drawn among the dots instead of a zigzag from dot to dot....
