There are a few things that you need to know. Basic terms The terms that are listed here are the terms that are going to be used to describe the consistency of your extract; however, you may realize that some of these terms are also used when looking at the name of the extract. Live resin: this is the extract that you will take from a fresh plant rather than a dried plant Crumble: chunks of dried extract or plant Shatter: an extract that is hard and candy like. Wax: extract that is stretchy and going to stick together even after it has cooled. Cannabis extracts Many of the extracts that we are going to discuss in this section are going to be listed later on in the book with the process in which you are going to be able to follow to make that particular extract. Kief: A powdery dust that can be smoked on its own but is going to burn quickly. Hash: Substantial chunks of extract. One of the oldest methods known...

### Reviews

*This pdf will be worth buying. Better than never, though i am quite late in start reading this one. I am easily can get a enjoyment of reading through a published book.*
