University Press of Kansas. Paperback. Book Condition: new. BRAND NEW, Red Spies in America: Stolen Secrets and the Dawn of the Cold War, Katherine A. S. Sibley, When the United States established diplomatic ties with the Soviet Union in 1933, it did more than normalize relations with the new Bolshevik state it opened the door to a parade of Russian spies. In the 1930s and 1940s, Soviet engineers and technicians, under the guise of international cooperation, reaped a rich harvest of intelligence from our industrial plants. Factory layouts, aircraft blueprints, fuel formulas all were grist for the Soviet espionage mill. And that, as Katherine Sibley shows, was just the beginning. While most historians date the onset of the Cold War with American fears of Soviet global domination after World War II, Sibley shows that it actually began during the war itself. The uncovering of atomic espionage in 1943 in particular not only led to increased surveillance of our ostensible Russian allies but also underscored a growing distrust of the Soviet Union that would eventually morph into full-blown hostility. Meticulously documented through exhaustive new research in American and Soviet archives, Sibley's book provides the most detailed study of Soviet military-industrial espionage to date, revealing that the United States knew much more about Soviet operations than previously acknowledged. She tells of spies like Steve Nelson and Clarence Hiskey, who passed on information about the Manhattan Project; moles within the federal government like Nathan Silvermaster; and Soviet agents like Andrei Schevchenko, who pressed defense workers to divulge high tech secrets. At the same time, as Sibley shows, hundreds of other Red agents went completely undetected. It was only through the revelations of defectors, and the postwar cracking of Soviet codes, that we began to fully understand these breaches in our national security. Sibley...
