By Forsman, D.

New Holland Publishers OCT 2016, 2016. Condition: NEW. 176, 150 col photographs. 250x250mm. HB. NEW. . Join Dick Forsman, widely acclaimed as the world expert on the birds of prey of the Western Palearctic and beyond, in his quest to find and photograph all the raptors of Europe during dozens of trips to all corners of the continent and beyond over a period of more than a decade. The result is a remarkable book, which will be on the wish list of birders everywhere. There are geographical chapters on Raptors of the far north, Raptors of the Mediterranean, Raptors in the Pyrenees and Raptors of the Middle East and behavioural chapters on Migration, Molt, Breeding and Hunting, as well as on the recent hot topic of Hybridisation. A useful technical details section at the back of the book will give added appeal for nature photographers....

### Reviews

*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who stante that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).*

*It in a single of the most popular ebook. It really is simplified but excitement in the fifty percent from the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.*
