

From the Arquebus to the Breechloader: How Firearms Transformed Early Infantry Tactics (Paperback)

By Piers Platt

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Firearms technology dominates the modern day battlefield, but how did the earliest guns affect battles in the Middle Ages? From their earliest incarnations in the 14th Century - which were as much a danger to their operator as they were to the enemy - to the muskets and breech-loading rifles of the 19th century, Piers Platt traces the technological advancements that revolutionized weapons, and how infantry tactics were forced to evolve as new and more lethal weapons were developed.

Reviews

It is one of the most popular ebooks. I have studied it and I am certain that I am going to likely read it again yet again in the future. I am happy to inform you that this is actually the greatest ebook I actually have studied inside my very own life and might be the best ebook for possibly.

-- Alison Stanton

I just started off looking over this ebook. It is actually loaded with wisdom and knowledge. It's been developed in a remarkably simple way. In fact, it is simply after I finished reading through this book where it basically modified me, modified the way I believe.
