

## Army Acquisition: Contract for the Reserve Component Automation System: Nsiad-93-5

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the Army's award of the Reserve Component Automation System (RCAS) contract, focusing on: (1) whether the Army complied with applicable acquisition laws and regulations; and (2) the Army's justification for awarding the contract to a higher bidder. GAO found that the: (1) Army properly followed applicable laws and regulations and performed a proper cost and technical analysis; (2) Army's source selection authority properly prepared the necessary pre-solicitation and solicitation documents including an acquisition strategy, acquisition plan, and a source selection plan; (3) Army listed the five evaluation factors in order of priority and noted that the successful contractor would be the one that provided the best cost and technical capabilities; (4) Army solicitation clearly communicated the priority of technical capabilities over cost concerns; (5) Army properly determined that the awardee's proposed system more than offset its higher bid; and (6) procurement fully conformed with the source selection plan and the Army provided adequate information to all prospective offerors in the solicitation. This item ships from La Vergne, TN. Paperback.
