An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

Linstone, pinpoint the profound changes that must occur in the way business executives think, make decisions, and solve problems, if America is to remain competitive. They put forth a radically new approach-- new thinking --and show executives exactly how to employ these special critical and creative tools to clear the hurdles businesses now face. Clearly and compellingly, Mitroff and Linstone weave together insights gleaned from philosophy, psychology, management science, economics, and decision science, and quote thinkers from Descartes to Robert Bly, from Alvin Toffler to Chief Seattle. In illustrating how new thinking differs from the usual ways in which American firms have handled problems, they analyze a wealth of examples including the decline of the American auto industry and the consequences of this country's blind exporting of technology. They also revisit and interpret some of the most grave crises corporate America has faced: the...
